May 2017

Dear Next Year's 7<sup>th</sup> Grade Parent(s):

We are pleased to let you know that your child scored in the advanced level of math in this spring's Performance Series and assessment history. As a result, we are placing your child in the 8<sup>th</sup> grade math book, skipping most of the 7<sup>th</sup> grade math book. However, there might be some gaps from skipping, so we would like your child to work over the summer on the web-based math program, IXL. Your child might be familiar with the program from 6<sup>th</sup> grade. You will find the login directions for IXL on the back side of this letter.

Attached are the IXL lessons that cover the material skipped. Your child's progress will be monitored over the summer, but completion is voluntary. Please check with the school office to make sure your email information is current in PowerSchool. This way we can communicate with you over the summer.

By being in the advanced class, your child will be placed in algebra for 8<sup>th</sup> grade (with the option of receiving high school credit), and then can follow this high school track: 9<sup>th</sup> grade – geometry; 10<sup>th</sup> grade – advanced algebra (Algebra II); 11<sup>th</sup> grade – pre-calculus/trigonometry; and 12<sup>th</sup> grade – calculus.

It is Skyview Middle School administrators' belief that your child is capable of doing the work and will be challenged in this class. If you have any questions, please do not hesitate to call Mr. Truesdell, Ms. DuFloth, or myself at 260-2500.

Ms. Natalie Kant  
Counselor
